ABOUT ME

I am a skilled and motivated developer with a deep passion for crafting visually stunning and functional websites. As a collector and someone who appreciates order in both work and life, I bring a meticulous and detail-oriented approach to my development projects.

WORK EXPERIENCE

WebArtWork | Layout developer
2022- 2023

During my tenure, I collaborated closely with a team of designers and developers to create visually captivating and user-friendly layouts for various client projects. This experience exposed me to the intricacies of managing client expectations and delivering projects within strict deadlines.

Lemon school | Student layout developer

I have undertaken numerous student projects during my education, allowing me to refine my technical proficiencies and gain practical exposure to real-world scenarios. Moreover I have successfully executed a commercial project as a freelancer, which provided me with valuable experience in collaborating with clients and understanding their unique requirements.

EDUCATION

Oles Honchar Dnopro National University

Master of English Philology

Lemon School

Layout developer
